

adore Collection
Discontinued - adore® 1100W Incandescent/Halogen sofTap® Dimmer, Magnesium
Part No. ADTP1103HM4

Control your lights, and even adjust the light level, with just a soft tap of a finger thanks to inventive micro-movement technology. Use this dimmer switch on its own to control an incandescent or halogen light or fixture from a single location, or pair with another remote dimmer switch for 3-way control a single light source from two locations.

This dimmer* features enduring Microban Registered antimicrobial technology that works to reduce the growth of bacteria, around the clock, for the lifespan of the product.

* Existing inventory of switches, dimmers and plastic wall plates from the adore Registered Collection at some partner locations may not yet include Microban Registered protection. To confirm that a specific Legrand product is protected with Microban Registered, check that the exterior of the product packaging includes a green dot or a "Protected with Microban" label.

Made exclusively for use with screwless Wall Plates from the adore Registered Collection, sold separately.

No antimicrobial efficacy claims are being made or are valid with respect to products sold in Canada.

Features & Benefits

Helps fight the growth of stain and odor-causing bacteria through the invisible and continuous product protection of Microban® antimicrobial technology

Installs in 15 minutes or less, fitting into an existing electrical box. No new wiring required for typical installation.

Usable in both single-pole and 3-way applications.

For complete installation, device must be paired with an adore® screwless Wall Plate (not included). Available in a range of contemporary colors and stunning finishes.

For use with dimmable incandescent/halogen bulbs or fixtures. Perfect for adding precise light level control -- all it takes is a soft tap to turn on/off or adjust brightness.

More color options available to fit any style, including finishes to match current hardware and lighting trends.
