

adorne Collection
Discontinued - adorne® 700W Incandescent/Halogen sofTap® Dimmer, White
Part No. ADTP703HW2

Turn lights on/off, or even dim them, with just a soft tap of a finger thanks to inventive micro-movement technology. This dimmer switch is meant for use with incandescent or halogen single fixtures and small lighting groups that do not exceed 700W.

This dimmer* features enduring Microban Registered antimicrobial technology that works to reduce the growth of bacteria, around the clock, for the lifespan of the product.

* Existing inventory of switches, dimmers and plastic wall plates from the adorne Registered Collection at some partner locations may not yet include Microban Registered protection. To confirm that a specific Legrand product is protected with Microban Registered, check that the exterior of the product packaging includes a green dot or a "Protected with Microban" label.

Made exclusively for use with screwless Wall Plates from the adorne Registered Collection, sold separately.

No antimicrobial efficacy claims are being made or are valid with respect to products sold in Canada.

Features & Benefits

Helps fight the growth of stain and odor-causing bacteria through the invisible and continuous product protection of Microban® antimicrobial technology

Installs in 15 minutes or less, fitting into an existing electrical box. No new wiring required for typical installation.

Usable in both single-pole and 3-way applications.

For complete installation, device must be paired with an adorne® screwless Wall Plate (not included). Available in a range of contemporary colors and stunning finishes.

For use with dimmable incandescent/halogen bulbs or fixtures that do not exceed 700W. Perfect for adding precise light level control -- all it takes is a soft tap to turn on/off or adjust brightness.

More color options available to fit any style, including finishes to match current hardware and lighting trends.
