

BTICINO > Wiring devices > Living Now > Main controls

3584C

Connected light relay. It controls the lights locally or remotely. It's compatible with all loads with power up to 300 W. It can be connected to one or more traditional pushbuttons, or it can be associated to one or more wireless controls. It's installed like a traditional relay inside the flush mounted box (behind the pushbutton), or in junction boxes. Caution: neutral connection is necessary. Power supply 100-240 Va.c. - 2 modules.

Technical features

N° of modules	basic
Rated power VA	250VA
Rated power W	300W
Rated voltage	110 - 230 Vac
Series	Living Now
