K4531C

Connected module for socket. When connected to a power socket, it allows remote control of electric devices and also to monitor their consumption (instantaneous, daily, monthly). It is also possible to receive notifications of abnormal consumption levels. Compatible with any electric devices with power up to 3800W with absorption 16 A (with overload protection). It has a blue LED, which can be configured using the HOME + CONTROL APP for the localisation and load status functions. Power supply 100-240 Va.c. - 1 module

Technical features

N° of modules	1
Rated power W	3800W
Rated voltage	100-240V a.c.
Rated current	16A
Series	Living Now
