

Wiremold
Omnibox Series Shallow Cast-Iron Floor Box
Part No. 880CM2-1

Omnibox Floor Box provides an excellent activation solution for applications where a single service is required in open space areas. The floor box is offered in durable cast iron construction, designed for installation in on-grade concrete floor applications and to meet a wide range of market requirements. This floor box series has many applications, including schools, financial institutions, and commercial office buildings.

Features & Benefits

TopGuard protection. All cover assemblies for the Omnibox Floor Box Series have TopGuard protection. An integral design which keeps out water, dirt, and debris from the power and communication compartments.

Watertight cast-iron construction. Meets requirements for on grade or below grade application.

Boxes and covers have been listed by Underwriters Laboratories Inc. to their standard UL514A, 514C, 514D, and Canadian standard C22.2

Datacom connectivity options. Accepts industry standard and proprietary devices from a wide range of manufacturers to provide a seamless and aesthetically pleasing interface for voice, data, audio, and video applications at the point-of-use.

A wide selection of data and bezel options available for use with Ortronics TracJack and Series II devices.

Fully adjustable box. Before and after concrete pour adjustability. Lower installed cost.

Can remove divider for greater capacity. Supports multiservice applications.

Flush activation assemblies for carpet and tile. Aesthetically pleasing assemblies are interchangeable for both cast-iron and stamped steel.

This product meets the material restrictions of RoHS.

Specifications

General Info
